

# PEA SHOOTS

WOW! pea shoots now available in 2 distinct varieties.

## TENDRILL PEA SHOOT

A new addition to the WOW! micro leaf range.

This smaller leaved pea shoot has all the taste of the salad variety but with the added bonus of decorative tendrils.

Add just before serving, the tendrill pea shoot makes the perfect finishing touch for garnishing many dishes, like pan-fried scallops or creamy risottos.

## SALAD PEA SHOOT

The classic WOW! micro leaf pea shoot!

This specially selected variety gives all the fresh flavour of garden peas straight from the pod. It's been tried and tested to give the best flavour and colour.

Use as an ingredient. Its more robust texture makes it the perfect addition to salads and sandwiches. Alternatively try sauteing, steaming or adding to stir-fries.

**Available now from your local WOW! micro leaf supplier.**
